Container Holdings

From this menu you're able to view your current cylinder holdings and identify slow moving containers. This is a perfect auditing tool to assist with inventory checking and rotation of cylinder stock.

Delivery Notes

Simply specify a range of dates for direct access to your recent delivery notes. Selecting this option will provide you with proof of delivery information and the ability to download copies for your records.

Invoices

This option takes you straight to your invoices, a helpful tool for accounting teams requiring copy invoices. Your statement is also available from here, a quick way to find out what may be owed on your account.

Pay Online

Here you can make a payment on your account, simply select which invoices you'd like to pay, confirm the amount and click 'pay now', this opens a secure payment portal - the fastest way to pay overdue invoices.

GasPortal - tracking your order

We have the option available for you to track orders. To locate this option, first click on the Invoices menu on the home page. You will then need to select the 'Orders' option from the left hand side of the screen. Once you have entered a ship-to and date range, press the green search button. You should now see a selection of orders placed during your chosen dates, similar to the example below.
